COMPASSION Finds a Way

CWOB.ORG

OUR MISSION

At Compassion Without Borders, our mission is to create brighter futures for animals—and the people who love them—on both sides of the border. We remove barriers to veterinary care and provide lifesaving rescue services in communities where need is high and resources are scarce. Guided by the belief that no animal is without hope, we work collaboratively to build a more compassionate and equitable world for animals and people alike.

OUR VISION

A world where every animal has access to the care, compassion, and opportunities they need to thrive, and where every community has equitable access to the resources needed to keep animals healthy and families together. We envision a future where no animal or person is left behind because of geography or financial circumstances, and where the bond between people and animals is valued, protected, and celebrated.

WHO WE ARE

Compassion Without Borders is powered by a dedicated team of more than 40 staff members across the U.S. and Mexico, supported by a committed Board of Directors and an incredible community of volunteers and supporters. Together, we bring compassion into action every day, breaking down barriers, saving lives, and creating brighter futures for animals and the people who love them.

Visit our website to meet our team and Board of Directors.

Scan Me

Dear Friends,

If there's one thing I've learned over the years, it's that compassion has an extraordinary ability to find a way.

A way to reach an animal who has been forgotten. A way to bring veterinary care to a community where none exists. A way to give a dog who has known only suffering the chance to experience love, safety, and belonging.

At Compassion Without Borders, we encounter situations every day that can feel overwhelming. Animals suffering from neglect, families struggling to access veterinary care for the pets they love, and shelters overflowing with dogs with medical needs who have nowhere else to go. The need is enormous, and there are always more animals waiting for help.

But time and again, compassion finds a way.

Sometimes that means traveling hundreds of miles to rescue animals facing an uncertain future. Sometimes it means finding creative solutions to make veterinary care more accessible or removing barriers that prevent animals from finding loving homes. And sometimes it means simply refusing to give up on an animal when the odds seem stacked against them.

This year, we've seen that spirit in action in so many ways. We've expanded our work alongside tribal communities to build more sustainable access to veterinary care. We've introduced innovative adoption practices to help more animals find homes. And we've continued responding to urgent calls for help on both sides of the border, bringing hope to animals who desperately need it.

None of this happens because we have unlimited resources or all the answers. It happens because we have an extraordinary community of people who believe, as we do, that every animal matters and that compassion should never be limited by geography, circumstance, or financial means.

You are the reason compassion finds a way.

Your generosity makes it possible for us to say yes when an animal needs help, to reach communities too often overlooked, and to keep searching for solutions even when the challenges seem insurmountable.

As you read the stories and accomplishments in this report, I hope you'll see more than the impact of our programs. I hope you'll see the extraordinary power of what we can accomplish together.

Thank you for believing in this work, for standing alongside us, and for helping compassion find a way, again and again.

With heartfelt gratitude,

Christi Camblor, DVM

Compassion Without Borders

COMPASSION TR

**Every year, your compassion and generosity transfor
we serve. Here are just a few of the second ch**

BENITO

When we rescued this puppy he was so ill he couldn't even carry the weight of his own head. Benito was starving to death, living in poor conditions, and suffering from distemper. After receiving lifesaving care, Benito made a remarkable recovery. Today, he is a joyous puppy who will get to live a full life with his adoring adopter.

GLORIA

Tied up outside to a short chain for six years, this brave girl was suffering from extensive medical conditions including a massive, grapefruit-sized hernia. We got her to safety, performed surgery on the hernia, and provided her with some much needed TLC. Today, Gloria is adored and finally gets to know the comfort of living in a safe and loving home.

ANSFORMS LIVES

m the lives of vulnerable animals in the communities
ances you've helped make possible this year:

KASHIA PUPPIES

CHAI, PUMPKIN, APPLE, MAPLE & PECAN

We met these five resilient puppies while providing a free mobile veterinary clinic in a remote tribal community with virtually no access to veterinary care. The community had been doing what they could to care for them, but the puppies were suffering from severe mange and were so malnourished that their growth had been stunted. Recognizing that the puppies needed more intensive care, community members asked if we could take them in and help them get healthy. We were happy to bring all five into our care and provide the medical treatment, nourishment, and love they so desperately needed.
Today, Chai, Pumpkin, Apple, Maple, and Pecan are all healthy, thriving, and living in loving homes where they'll have every opportunity to flourish.

TUGBOAT

When we rescued this handsome boy, he was so malnourished and ill that he couldn't walk. Covered in mange, starving, and emotionally shut down, Tugboat needed months of compassionate care and love to heal. Today, Tugboat is bursting with life and deeply cared for by his adopter.

PROGRAM HIGHLIGHTS

THIS YEAR, YOU MADE REAL CHANGE POSSIBLE.

EXPANDING VETERINARY ACCESS IN TRIBAL COMMUNITIES

With support from PetSmart Charities, we're working to break down longstanding barriers to veterinary care in tribal communities and create lasting, community-driven solutions.

Access to veterinary care remains a significant challenge for many tribal communities. We're working to change that by building meaningful partnerships with community members, listening to their priorities, and supporting locally led solutions that reflect each community's unique needs. Together, we're laying the groundwork for sustainable veterinary care that will benefit animals and the people who love them for years to come.

This year, we took important steps toward that vision, providing multiple free wellness clinics, offering educational classes, and carrying out a large-scale spay/-neuter campaign to help prevent unwanted litters and reduce animal suffering.

Our goal isn't simply to bring veterinary care into communities. It's to work alongside them to build solutions that last.

BREAKING DOWN
BARRIERS TO ADOPTION

This year, we launched an innovative "Name Your Price" adoption program rooted in our commitment to creating greater equity in the communities we serve. We believe that financial circumstances shouldn't stand in the way of the love and companionship that animals bring into our lives. By breaking down financial barriers to adoption, we're opening doors for more families while giving more shelter animals the second chances they deserve.

And it's working! Since launching the program, we've found loving homes for several long-stay dogs and heard directly from adopters who told us they wouldn't have been able to adopt without this opportunity. More access, more adoptions, and more lives transformed – on both ends of the leash.

HOME FOR HOPE;
COMBATTING THE ROOT CAUSE OF SUFFERING

This year, our Home For Hope in Puerto Peñasco, Mexico has become fully operational. A dream many years in the making, this state-of-the-art clinic and shelter is the first stop for vulnerable animals rescued from the streets. Staffed by compassionate veterinary professionals, animals are able to receive critical care as soon as they arrive.

In addition to being a refuge for rescued animals, Home For Hope is open five days a week to the public, providing free essential veterinary care to pets in the community. Every day, families line up outside our doors to have their animals seen, while compassionate community members bring in urgent cases from the streets. Our clinic also performs daily, high-quality, high-volume spay/neuter surgeries.

Home For Hope is a true game changer, actively reducing animal suffering and homelessness while keeping pets with the families who love them.

PROVIDING RELIEF
FOR OVERBURDENED SHELTERS

Our commitment to bringing brighter futures to the most at-risk animals has been more crucial than ever in our local U.S. community. Shelters are deeply overburdened and the number of unwanted animals in need continues to grow. This year, we've brought in dozens of animals from partner shelters in the U.S. with a special focus on animals with significant medical needs.

Because of the overwhelming number of homeless animals crowding shelters, they often don't have the resources to provide necessary medical care for sick and injured animals. We have partnered with some of the most burdened local shelters to bring in animals who need critical care. We've been able to provide support on cases ranging from treating general mange to performing emergency surgery.

By taking on these medical cases, we give shelters much-needed relief while ensuring animals receive the care they need to heal and move on to their next chapter.

OUR IMPACT

10,196 ANIMALS HELPED

9,198 ANIMALS RECEIVED

VETERINARY CARE AND SPAY/NEUTER SERVICES

Through our free veterinary clinic in Mexico and community clinics in the U.S., CWOB provided essential veterinary care and spay/neuter services to 9,198 animals in underserved communities. By removing barriers to care, we're helping families keep their beloved companions healthy, at home, and out of shelters.

998 ANIMALS RESCUED

AND GIVEN A SECOND CHANCE

We rescued 998 homeless and vulnerable animals from Mexico and underserved communities and shelters throughout California, providing the veterinary care, rehabilitation, and compassion they needed to heal and prepare for loving homes.
